The Selection Committee has made a recommendation to the New Hampshire Liquor Commission (NHLC) for the redevelopment of the Hampton Interstate 95 Hampton Service Areas. This comes after a comprehensive review process facilitated by experts in complex transportation projects, consulting, auditing, and accounting.

The RFP process is still ongoing, and due to confidentiality, NHLC cannot reveal the name of the recommended entity.

The New Hampshire Liquor Commission will now begin negotiations and enter into a formal agreement.

Next, the project will go before the Long Range Capital Planning Commission for review and approval.

A finalized ground lease contract will follow and be presented to the Governor and Executive Council for final approval.
